A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

Jan A Odiaga DNP, APN, CPNP-PC
Joanne M Miller PhD, APN, GPN-BC
Chris Bruti, MD
Mary Jo Guglielmo, MPH
Gabriella Cs-Szabo, PhD
Grisel Rodrigues-Morales MSW
This activity has been planned and implemented by the National Center for Interprofessional Practice and Education. In support of improving patient care, the National Center for Interprofessional Practice and Education is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Physicians: The National Center for Interprofessional Practice and Education designates this live activity for a maximum of 4 AMA PRA Category 1 Credits™.

Physician Assistants: The American Academy of Physician Assistants (AAPA) accepts credit from organizations accredited by the ACCME.

Nurses: Participants will be awarded up to 4 contact hours of credit for attendance at this workshop.

Nurse Practitioners: The American Academy of Nurse Practitioners Certification Program (AANPCP) accepts credit from organizations accredited by the ACCME and ANCC.

Pharmacists: This activity is approved for 4 contact hours (.4 CEU) UAN JA4008105-0000-18-071-L04-P
Disclosures:

The National Center for Interprofessional Practice and Education has a conflict of interest policy that requires disclosure of financial relationships with commercial interests.

Janice Odiaga, Joanne Miller, Chris Bruti, and Mary Jo Guglielmo do not have a vested interest in or affiliation with any corporate organization offering financial support for this interprofessional continuing education activity, or any affiliation with a commercial interest whose philosophy could potentially bias their presentation.
All workshop participants:

- Scan your badge barcode or sign in to each workshop
- Complete workshop evaluations (paper) and end-of-Summit evaluation (electronic)
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

Objectives:

1. List the ideologies that support the use of interprofessional service learning to promote interprofessional collaborative practice opportunities for students
2. Describe a model of community based service
3. Develop an interprofessional service learning model specific to their educational organization
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

• Provides a reason
• Framework that aligns with mission and vision
• Sustainability

It’s all about the Why
Reflect on your reasoning for engaging with an IP service learning project

**What’s Your Where and Why?**

How can an IP service learning program align with your mission and vision?

**Who’s Your Who?**

Who are your service learners, stakeholders, and instructors?
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

OUR WHY and WHERE
OUR WHY

Building a framework for Interprofessional Service Learning

Our environments cultivate our, communities and our communities nurture our health.

When inequities are low and community assets are high, health outcomes are best.

Violence  Substance Abuse  Smoking  HIV/AIDS  Infant Mortality  Malnutrition  Stress  Obesity  Depression  Heart Disease

Fragmented Systems  Restricted Power  Dilapidation  Disinvestment  Disconnected Members

Adverse Living Conditions  Poor Quality Schools  Occupational Hazards  Institutional Racism  Environmental Toxins

Poverty  Segregation  Marketing for Tobacco and Alcohol  Unemployment  Discrimination

Quality Schools  Access to Healthy Foods  Access to Healthcare  Access to Recreational Facilities  Clean Environment

Adequate Income  Health Insurance  Jobs  Transportation Resources
OUR WHO

• Recipients of service based-learning:
  • Community Heath Mentors and their community
  • Rush community partners
  • Interprofessional student teams
  • University Faculty

A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

Building a framework for Interprofessional Service Learning

What is Service Learning?
• A structured learning experience which combines community service with preparation and reflection

Why Service Learning?
• Educational strategy
• Teaches civic responsibility
• Strengthens community partnerships

Goal of Service Learning?
• Improve the overall health and wellness of communities through facilitated service
Building a framework for Interprofessional Service Learning

- **Interprofessional Education and Collaborative Practice Expert Panel (2011)**
  - Values/Ethics for Interprofessional Practice
  - Roles/Responsibilities
  - Interprofessional Communication
  - Teams and Teamwork

- **Interprofessional Education Collaborative (2016)**
  Broaden the interprofessional competencies to better achieve the Triple Aim (improve the patient experience of care, improve the health of populations, and reduce the per capita cost of health care), with particular reference to population health.

Building a framework for Interprofessional Service Learning
Curriculum Innovation for Interprofessional Education

Preparing collaborative practice-ready Rush graduates who champion interprofessional practice that optimizes health services, improves health outcomes and strengthens health systems and improves health

Acquire competencies in interprofessional behaviors

Building foundational knowledge (team identity concurrent with professional identity)

Interprofessional curricular integration in the beginning of their educational experiences

Develop

Team learning environments curricular and extra curricular activities

Formal workshops

Clinical and community-based experiences

Team Simulation exercises

Strengthen interprofessional experiences to prepare students for the health care delivery system

Reinforced through program and college specific competencies to include leadership skills in interprofessional collaborative practice

Strategies for Community-Campus Partnerships for Health

• Mission is to promote health equity and social justice through partnerships between communities and academic institutions
• Community-campus partnerships involve communities and academic institutions that collaboratively engage in education through:
  Service-learning
  Research
  Community-oriented primary care
  Community-wide initiatives for Healthy Communities

IPE 502: Interprofessional Patient Centered Teams

Kick off: Bench to Bedside and Back Again
- Why teams?
- Roles & Responsibilities

Intro to IPCP
- Why teams?
- Roles & Responsibilities

Community Health Mentor
- Social determinants of health
- Interprofessional Patient Centered Care
- SMART goals

Culture of Safety
- Team communication
- Values and ethics

TOSCES
- Teams and Teamwork
- Simulation experience

Debrief
- Health Mentor wrap-up
- Health Outcomes
- Advocacy Proposal
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

**OBJECTIVES**

- **Engage** the Community Health Mentor (CHM) in participation and planning their own care
- **Discuss** how the social determinants of health impact management of chronic conditions
- **Use** team-based chronic care model to engage the Health Mentor to manage their own care
- **Complete a Community Assessment** of the CHM neighborhood
- **Develop a Community Advocacy Program** to improve the health of the CHM neighborhood.
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

- **Community Health Mentors (CHM)**
  - Community volunteers living with one or more chronic diseases
  - Recruited from communities where the zip code makes a difference in life expectancy
  - Recruited by social workers
  - CHM meet with their interprofessional student teams three times a year
  - Incentives
WHEN?

Timing matters!
Community Health Mentor (CHM) Time Line

Meet the CHM
- Interview
- SDH
- SMART goal
- Set date for Touch Point #1

Touch Point #1
- Progress on SMART goal
- CHM identifies community
- Set date for Touch Point #2

Touch Point #2
- Progress on SMART goal
- Present CA
- Identify a Community Advocacy Proposal (CAP) based off your CA
- Set date for Touch Point #3

Touch Point #3
- Progress of SMART goal
- Present CAP
- Thank you for your time

Team completes Community Assessment (CA)
Team completes Community Advocacy Proposal (CAP)

Fall semester
Spring Semester
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

Three Touch Points

1. Develop an action plan which is specific, measurable, attainable, realistic, and timely (SMART goal)
   - motivational interviewing
   - focused on impact of social determinants of health impact on community volunteers ability to improve health outcomes and manage their chronic conditions

2. Complete a community assessment based on the CHM’s description of their community and follow up on their SMART goal

3. Develop a community advocacy proposal with their CHM to improve the health of individuals and their community.
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

Community Assessment (CA)

- Define the population/community. (attach a google map)
- Population description (size and distribution of age, gender, race/ethnicity)
- Population health (Morbidity & mortality based on age and race)
- Economic stability (Employment rate, average income, number and types of businesses in the area).
- Education (Educational levels, types of education, schools/universities, early childhood programs)
- Food (Number and access to grocery stores, restaurants, community gardens, fast food restaurants)
- Social Supports (Houses of faith, community centers, libraries, theaters, other potentially significant support services)
- Health Care (Number insured and type of insurance), hospitals, primary care clinics, FQHCs (Federally Qualified Health Centers), drug stores)
- Transportation (Public/private, accessibility, walking paths, sidewalks)
- Public safety statistics/Resources (crime rate, police, fire stations)
A Community Based Model of Interprofessional Service Learning to Improve the Overall Health and Wellness of Communities

Community Advocacy Proposal (CAP)

| 1. Name the Health Mentor’s Community geographically (Name and attach google map) |
| 2. Define the benefitting community: (statistics, geographical, demographical information about the community) |
| 3. What community need was identified? |
| 4. What is your Community Advocacy Proposal in one sentence |
| 5. What are the expected outcomes/goals? |
| 6. Who are the community partners that will help with the CAP |
| 7. What is the process/action/implementation plan for change |
| 8. What are the community resources/assets needed to complete the CAP |
| 9. Identify strengths of the CAP implementation |
| 10. Identify challenges of the CAP implementation |
| 11. How will you evaluate/assess any change/impact to the community? |
SMALL GROUP WORK

Reflect on a potential IP service project (15 min)

Your What?

What framework could you implement for an IP service learning program?

Your How and When?

How and when would you implement your program?
DISCUSSION

Share with other groups

Your **What?**
What framework could you implement for an IP service learning program?

Your **How and When?**
How and when would you implement your program?
DISCUSSION

• What are your perceived challenges/barriers?

• How can these be overcome?

• Should they be overcome?

Challenges Ahead!
